Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 26 July 2007.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1,3-5,8,16,19,28,46-48 and 50-58 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 1, 3-5, 8, 16, 19, 28, 46-48 and 50-58 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☒ The drawing(s) filed on 30 January 2007 is/are: a) ☒ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
2. ☐ Certified copies of the priority documents have been received in Application No. _____.
3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).
- * See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

Claim Objections

Claims 3-5, 8, 16, 19, 28, 46-48, and 51-57 are objected to because of the following informalities: In the independent claims 1 and 50, the applicant claims an implant. All dependent claims, disclose "a positioned implant". Therefore it is unclear whether applicant is claiming "an implant" or "a positioned implant". Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 3-5, 8, 16, 19, 28, 46-48, and 50-58 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 1, 50 and 58, line 1, recites the limitation "the lateral compartment", which lacks a proper antecedent.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1, 3-5, 8, 16, 19, 28 and 46-58 are rejected under 35 U.S.C. 101 because they are drawn to non-statutory subject matter. In claim 1, lines 1-3, applicant positively

Art Unit: 3733

recites part of a human, i.e. "positioned within the lateral compartment of a knee joint...within a mammalian body". In claim 1, lines 3-4, applicant positively recites part of a human, i.e. "the implant positioned in the joint". Thus claims 3-5, 8, 16, 19, 28, 46-49 and 51-57 include a human within their scope and are non-statutory. Claims 50 and 58 claim the same non-statutory subject matter.

A claim directed to or including within its scope a human is not considered to be patentable subject matter under 35 U.S.C. 101. The grant of a limited, but exclusive property right in a human being is prohibited by the Constitution. In re Wakefield, 422 F.2d 897, 164 USPQ 636 (CCPA 1970).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 4, 5, 8, 16, 46-48, 50, 52-55, and 57 are rejected under 35 U.S.C. 102(b) as being anticipated by Fell et al (WO 00/59411-the same as U.S. Patent No. 6,206,927).

Fell et al. disclose a device able to be positioned with a lateral compartment of a knee joint having a lateral tibial surface and a lateral femoral condyle comprising a knee implant (Fig. 10) providing a first major surface positioned upon and congruent with a tibial surface of the knee and a second major surface positioned against a femoral

Art Unit: 3733

condyle of the knee, wherein the second major surface is provided with a femoral glide path (8). The implant further comprises one or more tibial projections (29) extending distally over a rim of the posterior portion of the tibial surface in order to improve fixation in situ. The implant further comprises at least one ancillary component (28) integrated into the implant to provide fixation into bone. Fell et al. also discloses using a biologically active agent that is known to stimulate bone/tissue growth and also using a ceramic and or metal material (page 6, paragraph 4).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 3, 19, 28, 51 and 58 are rejected under 35 U.S.C. 103(a) as being unpatentable over by Fell et al. (WO 00/59411).

Fell et al. disclose the claimed invention except for the specified dimensions of the preformed component or the glide path as set forth in claims 3, 9, 19, 28, 51 and 58. It would have been obvious to one having ordinary skill in the art at the time the invention was made to construct the dimensions of the preformed component and the glide path of claims 3, 9, 19, 28, 51 and 58, since it has been held that where the general conditions of a claim are disclosed in the prior art, discovering the optimum or workable ranges involves only routine skill in the art. In re Aller, 105 USPQ 233.

Response to Arguments

Applicant's arguments with respect to claims 1, 3-5, 8, 16, 19, 28, 46-48 and 50-58 have been considered but are moot in view of the new ground(s) of rejection.

Furthermore, the current condition of these claims are directed towards non-statutory subject matter which is why there is no double patent rejection in this office action.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See PTO-892 for art cited of interest.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3733

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
